

Diploma in Construction Management

(R3/0733/4/0003) (08/29) (A 3428)

What is Construction Management?

Construction management is a professional service that provides project's owner with effective management of the project's schedule, cost, quality, safety, scope and function.

This programme is management-oriented and prepares you for a range of professional roles in the building and infrastructure construction industry.

You will be taught by a dedicated team of professionals with qualifications and experience in construction related disciplines.

You will also have the opportunity to participate in supervised visits to construction sites.
