

OUR PROGRAMS

Diploma in Construction Management

(R3/0733/4/0003)(08/29)(MQA/FA3428)

The **Diploma in Construction Management** is a specialized program designed to provide a robust foundation in the core disciplines of construction project oversight, including project coordination, cost management, and construction technology. Participants will engage in applied learning through industry site visits, case analyses, and a structured 12-week internship, cultivating the expertise required to manage projects from inception through completion while upholding standards of **compliance, safety, and operational efficiency**. This industry-focused curriculum prepares graduates for key roles such as **site supervisor, assistant quantity surveyor, and project coordinator**, emphasizing both **technical proficiency** and **professional readiness** within the construction sector.
